

7th Asia-Pacific

Eco-Business Forum

in Kawasaki, Japan

—Urban and Industrial Symbiosis—

February 14th–15th, 2011 (Monday–Tuesday)

Venue: Institute of Industrial Promotion Kawasaki
(66–20 Horikawa-cho, Saiwai-ku, Kawasaki-shi, Japan)

Organizer: City of Kawasaki

Co-organizer: United Nations Environment Programme,

(Tentative) International Environmental Technology Centre (UNEP IETC)

National Institute for Environmental Studies (NIES) 【Japan】

The City of Kawasaki aims to achieve a creation of sustainable city, symbiosis between Industry and Environment. Moreover, in cooperation with the United Nations Environment Programme (UNEP), the City of Kawasaki aims to make an international contribution to environmental policies in industrializing countries by using advanced environmental technologies possessed by companies in Kawasaki, in addition to the experience of Kawasaki in environmental conservation.

The 7th Asia-Pacific Eco-Business Forum will be held as part of such efforts. It provides occasion for the participants to exchange information on the advanced environmental technologies.
