Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair and views the target through a video camera. The target is a small object (e.g., a ball) that is suspended in the air. The subject's hand is positioned near the target. The video camera is positioned above the target and the subject's hand. The video camera is connected to a computer, which displays the target's position on a monitor. The subject's hand is positioned near the target, and the video camera is positioned above the target and the subject's hand. The video camera is connected to a computer, which displays the target's position on a monitor.
