

How to separate and dispose of recyclables and garbage

Plastic resources

once a week
recyclable materials

Separate collection will start in April 2024.

What are plastic resources?

Plastic products and plastic containers with a length of less than 50 cm. If the majority of the material is plastic, it may be treated as plastic even if it does not have the plastic mark.

kitchenware

storage containers, dishes, etc.

trays

meat and fish food trays, lunchbox containers

laundry supplies

clothespins, baskets, etc.

cups and packets

cup noodles, egg containers, etc.

bath and toiletries

toothbrushes, wash basin, etc.

bottles

detergent, shampoo containers, etc.

stationery

rulers, clear files, etc.

tubes

mayonnaise, ketchup, etc.

Other commodities, lids (caps), plastic bags, films, cushioning materials, nets, etc. are also applicable

Items that cannot be disposed of as plastic resources

The following items may not be placed in the container as they may cause injury, ignition, facility failure, or interfere with recycling.

Items that run on electricity or batteries

watches, hair dryers, toys, etc. (small metal items)

Cutting tools

scissors, cutters, etc. (small metal items)

Objects with magnets

e.g., magnets (small metal items)

Never put in any products containing lithium-ion batteries

e.g., smartphones, heated/electronic cigarettes, mobile batteries

Items with a risk of ignition

lighters, etc. (ordinary garbage, small metal items)

Scattered items

e.g., beaded cushions (ordinary garbage)

Reinforced plastics

helmets, etc. (ordinary garbage)

Others (infectious items (e.g., antigen test kits (ordinary garbage)), injection needles (home medical waste), cloths (local recyclable resources collection, ordinary garbage), rubbers (ordinary garbage), plastic products longer than 50 cm (oversized garbage))

How to dispose

- Use up the contents, rinse lightly or wipe clean, and place in a clear or translucent bag.
- Please put out your recyclable materials at the "Recyclable Materials Collection Point" by 8:00 a.m. on the day of collection.

Rinse lightly

or

Wipe off dirt

Put out in a transparent or translucent bag

(utilize leftover water from washing dishes, etc.)

Labels that are difficult to remove may be collected as is (if they can be removed, please remove them).

If you cannot remove the stain, simply empty the contents and use it up.

We also collect strong smelling items (please rinse them lightly before putting them out)

Things to keep in mind when disposing

- Please cut long items or items that become large when spread out into small pieces under 50cm (if you cannot cut them, please dispose them as ordinary garbage)
- Please do not double or triple bag items

plastic string, etc.

leisure sheets, etc.

- If it can be easily disassembled, please separate and dispose of it separately.

ordinary garbage

普通ごみ

Partially used ballpoint pens, etc.

body-plastic resources, ink cartridge—ordinary garbage ※If they cannot be disassembled, dispose as plastic resources

ordinary garbage

普通ごみ

Video tapes, cassette tapes, etc.

main body (outside) plastic resources, tapes → ordinary garbage ※They become entangled in the recycling facilities' machinery, dispose as ordinary garbage if tapes cannot be disassembled.

Partially used ballpoint pens, etc.

Plastic resources can be reduced in volume and made easier to store and discharge by "eliminating gaps" as much as possible.

Make it compact by stacking or cutting! (Please be careful not to accidentally cut your hand when using scissors, etc.)

Bagged items can be "tied" or "folded" to make them compact.
